

Creating Videos with HP Streams and Google Apps for Education

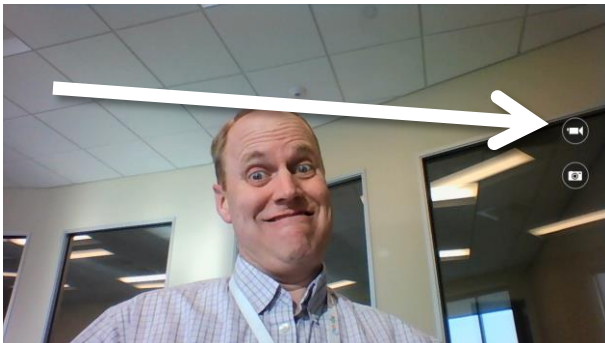

1. Start at the Start Up Screen.
2. Click on the down arrow on the bottom left of the screen. You may have to move your mouse a

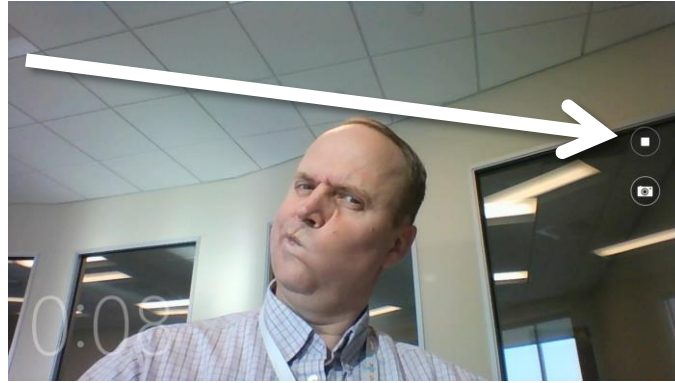

little to see it.

3. Click Camera.
4. The camera will start. To make a recording click on the video camera on the right.

5. When you are done recording click the stop button. The stop button is in the same place as the

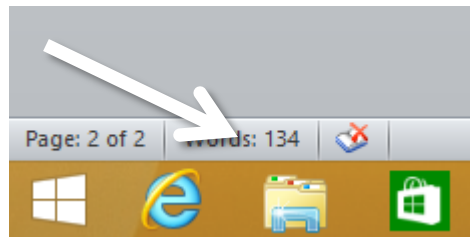

video camera button.

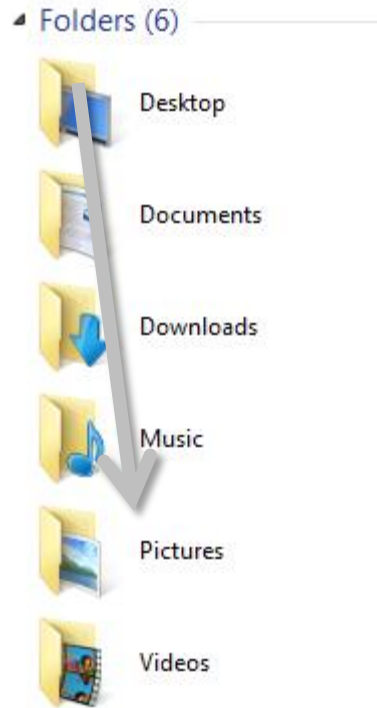

6. When you are done move your mouse to the top of the screen so you can close the camera.

7. Now a guiding question. Read this question first and then continue reading until you find the answer. The guiding question is: Where is the video file?

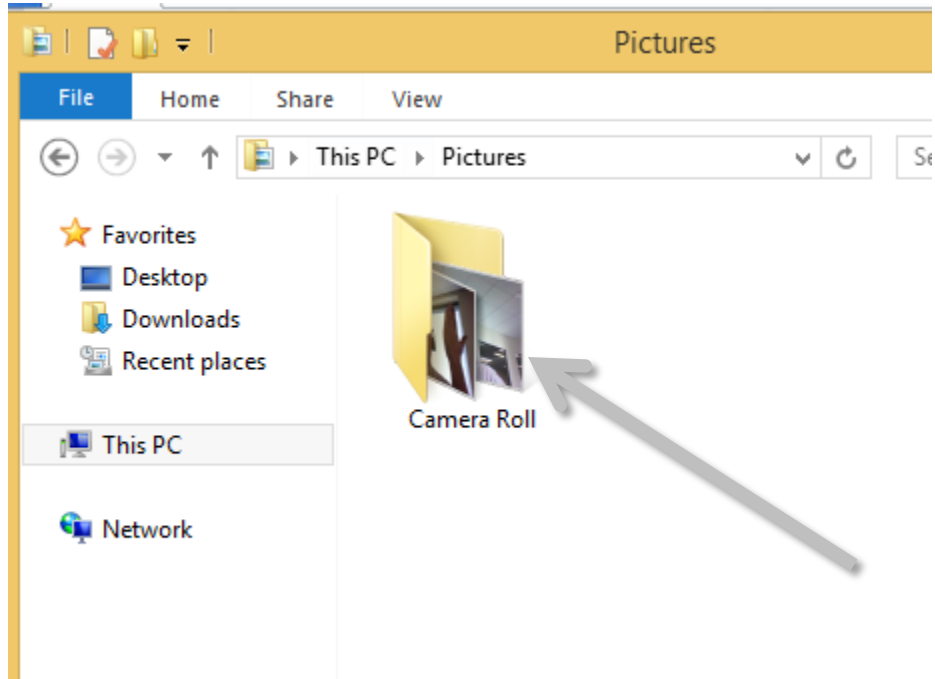

8. Click the folder button.

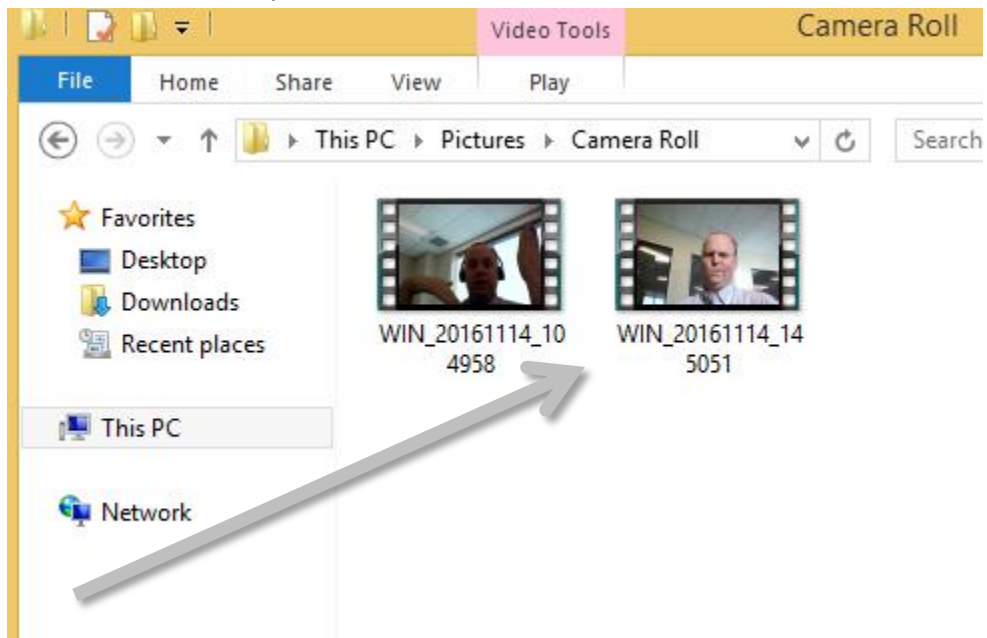

9. Click Pictures.

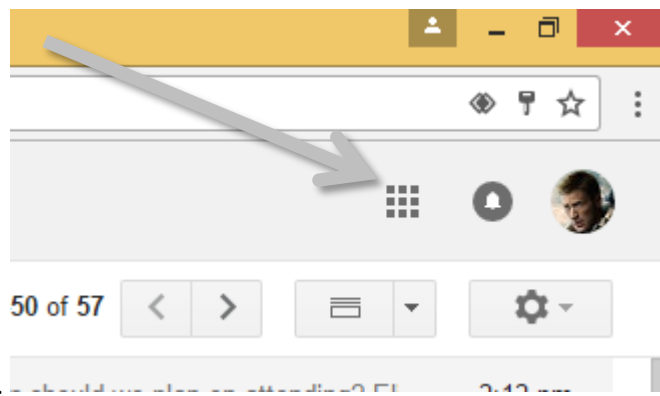

10. Double Click Camera Roll.

11. The video files will be present in the folder.

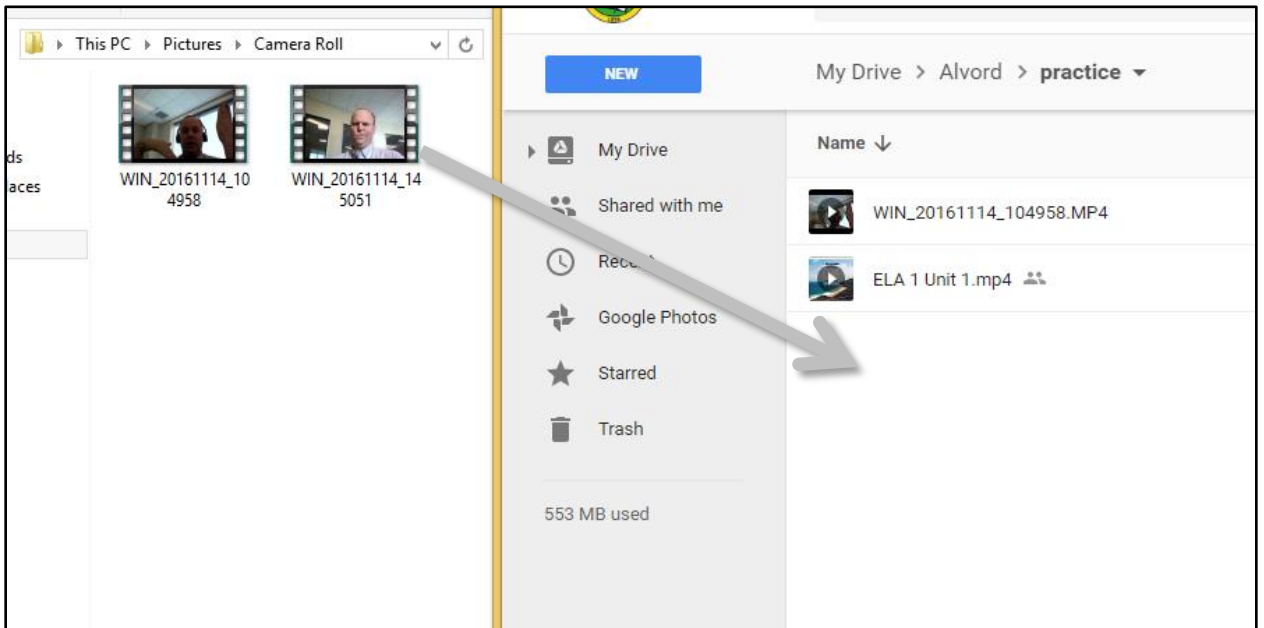

12. Now for placing the video files into a Google Apps for Education Account. Log into your Google Apps for Education Account.

13. Click into the Google Apps Button.

14. Drag the video file into the Google Folder.

15.
