2. School Plan for Student Achievement (SPSA)
 - Monitor student progress - family engagement goal data
 - Cabeza summarized WASC parent survey results a little over 200 which indicated overall families are happy with the services provided by the school. CHKS survey turnout for parents have been no more than 75 respondents over the last two years. There are currently 6 out of 18 active booster clubs. Low parent participation in counseling sessions, workshops and events with a total of 160

parents attending 8 events this year. Data shows there is still a need for family engagement given that there is low parental involvement and participation in these events.

 - Callahan suggested that we offer parents virtual session options to increase parent participation - we can add Zoom to purchase for the school
 - Cabeza suggested PIQE for family engagement sessions
 - Reedy suggested additional time for calls to be made - to invite parents to events
 - Callahan suggested - additional time for counselors and OCI teachers to make personal calls for at risk students - move to intervention goal
