17. Ratification and Confirmation of the Approval of Lease Agreement – KPC Summit, LLC.:
- During discussion of this item, the following individuals came forward to clarify information and answer questions:
- Kevin Emenaker, Executive Director, Administrative Services
 - Ami Shackelford, Chief Financial Officer
- **Mr. Pérez** stated that school districts should never lease land and the logical solution is to see what facilities the District currently has that will meet the needs. Mr. Pérez believes that the District needs to start with a small picture and review options to meet the immediate needs of staff. Information Technology and Special Projects were first, Business Services should be next and then the main District Offices. Mr. Pérez stated that the District has land to build on and options they can review. Mr. Pérez requested that the Board review and consider the options they have before them because this lease comes at a premium price and it will cost less to build than to lease this building. Mr. Pérez requested the definition of an educational facility as it relates to funding.

➤ **Mr. Johnson** stated that there is no question that the District needs new facilities which represent the District in a better manner; however, it is possible to build on current property. When schools were modernized, site staff and students were inconvenienced so it would not be any different for the District Office staff. Mr. Johnson would like to see the District buy as opposed to renting and he believes the lease agreement was done too quickly. Mr. Johnson stated that no one made this decision lightly; however, our grandchildren will inherit this debt and when it is all said and done they will not own anything.

➤ **Mr. Kaspereen** clarified that every time there is a Board Meeting, an agenda is posted with both Closed Session and Open Session items clearly listed, giving anyone that desires the opportunity to speak to items agendized for Closed and Open Sessions. Mr. Kaspereen does not believe that the decision to approve the lease agreement was rushed. The Board looked at other options, went to the City of Riverside to request assistance, and looked at a building in Riverwalk. The City of Riverside wanted to assist the District unfortunately they did not have any property or buildings that would accommodate the District. It would have been nice to stay at this location but the condition of the buildings and the length of time it will take to build a new facility will not permit that.

➤ **Mrs. Wilson** stated that her number one priority in this situation is the health and welfare of employees. Seven years ago, Mrs. Wilson visited the Information Technology department and was appalled by the conditions and it has taken seven years to get the employees out of that building; however, the employees for that department are now located at two different sites. Having employees at different sites located across the District has presented them with many challenges, they have to deliver materials across the District by loading, driving and pulling carts to various locations. Mrs. Wilson stated that staff has come to her over the years begging her to do something about their working environment. In Business Services, there is a hole in the floor covered by carpet, cats live under that raised building and staff has to constantly deal with the odor of urine, which you can smell on any given day. The need for new District facilities is nothing new, Wendel Tucker, Paul Gill and Herb Calderon have all looked into moving the District Offices, this has been a long standing concern and this was not a rushed decision. Mrs. Wilson stated that for her it has been seven long years in the making. Mrs. Wilson stated that administrators reached out to the City of Riverside and asked them to assist the District. Administrators also reached out to one of the property management companies for Riverwalk and they determined that having school district offices located in their building was not a fit for their current tenants. The decision the Board made was in the best interest of employees.

➤ **Mr. Kraft** stated that anyone who knows him knows he is fiscally conservative and, as a former realtor, Mr. Kraft does not believe in renting. The District cannot go out for another bond and Mr. Kraft does not believe in taxation. If money was available the Board would have made a decision to build on this property, but we do not have the funds to do that. The Board reviewed other options. This lease made it possible to stay within the District boundaries. Fifteen thousand homes have been approved to be built in the near future which will make this property

centrally located within the District's boundaries. It is Mr. Kraft's hope that the District will purchase this property down the line. There are employees who have approached Mr. Kraft and stated they have experienced health problems and are concerned about the environment they have to work in daily. Mr. Kraft believes in communicating with the community; however, when the District sold the Knoeffler property and purchased the Frost Reservoir, no one came forward and expressed any concerns with these actions. Mr. Kraft stated that students remain the Board's number one priority and they will continue to meet their needs.

The Board took action to extend discussion on Item 17 until 8:30 p.m. upon a motion made by Greg Kraft and seconded by José Luis Pérez.

MSC. 102

Following comments from the audience the Board of Education reviewed with staff the cost of breaking the lease, the possibility of sending the lease agreement to the Riverside County Office of Education for review and restated the reasons and concerns that led to their individual votes on May 15, 2014, resulting in the approval of the Lease Agreement with KPC Summit, LLC.

- Dr. Salazar closed comments on Item 17 by stating that the lease agreement has clearly created contentious discussion tonight; however, he wants everyone to know that the first priority is and always will be students. Dr. Salazar commended Xolchilt Mendez and stated that she was correct in her observations related to transparency and he wants everyone to know that we are a work in progress and it is important to be transparent; however, that does not negate the fact that employees have come to him asking for better working conditions. Whatever the Board decides tonight, Dr. Salazar will support their decision.

The need to negotiate this was eliminated 20 years ago. Ms. Decker was a part of that process and it has always been understood that increases applied to the identified appendices. Ms. Decker stated that she is bothered considerably that this item is on the agenda because it appears that the teachers are asking for more money and that is not the case.

➤ Mike Kolonics, speaking on behalf of the Bargaining Team, relayed his concerns about the District Negotiating Team coming unprepared to negotiations and stated that they spend sixty percent of their time in caucus. Mr. Kolonics stated that this item being placed on the agenda is an example of their poor preparation.
