

TEACHERS AND PARENTS: That USB Stick Might Be an *E*-cigarette

E-cigarettes are the most commonly used tobacco product among U.S. middle and high school students.

Some e-cigarettes don't look like tobacco products, so some kids use them unnoticed in schools, including in classrooms and bathrooms.

An increasingly popular e-cigarette, called JUUL, is shaped like a USB flash drive.

JUUL delivers a high dose of nicotine. Nicotine is highly addictive and can harm adolescent brain development.

**TOBACCO PRODUCT
USE IN ANY FORM,
INCLUDING
E-CIGARETTES, IS
UNSAFE FOR YOUTH.**
